### Summary

I am an ICT Business Analyst and Software Developer passionate about creating innovative solutions. With experience in system development, full-stack projects, and Java applications, I aim to leverage technology to solve real-world challenges. I am eager to enhance my expertise and contribute to impactful ICT advancements through this program.

### Education

**Diploma in ICT Business Analysis** 2023  
Walter Sisulu University

**Matric** 2016  
Lindelani Senior Secondary School

### Experience

**System Development intern**  
CAPACITI currently  
Assisted in designing, coding, testing, and maintaining software solutions. Collaborated with cross-functional teams to gather requirements and develop user-focused systems. Gained hands-on experience in debugging, documentation, and software development lifecycle processes

**Educator Assistant** 2023  
ECDOE

An Educator Assistant supports teachers with lesson preparation, classroom management, and student engagement. Duties include preparing teaching materials, assisting with grading, supervising students, and providing one-on-one or group support. They help create a positive, inclusive learning environment and ensure effective communication between teachers, students, and parents.

**Customer Assistant** 2021  
KFC

ensuring excellent customer service by assisting with inquiries, resolving complaints, and providing product or service information. Key responsibilities include greeting customers, managing transactions, restocking shelves, and maintaining a clean and organized workspace. They also support sales by promoting products, upselling, and ensuring customer satisfaction to enhance the overall shopping experience.
